

KNIGHT
CONSULTANCY

**Smarter Compliance.
Stronger Security.
Confident Regulation.**

Isle of Man Compliance, Regulatory & Data Security Specialists

Knight Consultancy supports organisations across the Isle of Man with practical, expert-led compliance, governance, data protection, FOI handling, and IT services.

We operate at the intersection of law, regulation, governance, and technology, giving you a single, trusted partner who understands both the rules and the systems that keep your organisation running.

Our work enables organisations to operate confidently in environments subject to regulatory scrutiny, supervisory expectations, and public accountability.

What We Do

Knight Consultancy operates across two integrated disciplines:

- Compliance & Regulatory Advisory
- Data Security, Information Governance & IT Resilience

Together, these services help organisations meet their obligations, protect their information, and operate effectively under regulatory oversight.

Compliance & Regulatory Advisory

We support organisations operating under statutory, supervisory, or public-law regimes in the Isle of Man.

Our role is to translate regulatory requirements into practical, defensible operational controls that stand up to scrutiny.

We regularly assist clients in preparing for, responding to, and engaging with regulators and oversight bodies, including:

- Isle of Man Financial Services Authority (FSA)
- Isle of Man Gambling Supervision Commission (GSC)
- The Information Commissioner
- Local authorities and public bodies subject to FOI and data protection law

Our support includes:

- Regulatory submissions, correspondence, and enquiries
- Governance, risk, and compliance framework design
- Policy and procedure development aligned to supervisory expectations
- Freedom of Information (FOI) processes and statutory response handling
- Ongoing regulatory readiness, review, and remediation support
- Staff training and advisory services

We understand not just what the rules say – but how regulators apply them in practice.

Data Protection, Information Governance & Cybersecurity

Strong compliance depends on how information is managed, protected, and governed. Knight Consultancy provides specialist support across data protection, cybersecurity, and information governance, ensuring organisations can demonstrate appropriate safeguards for sensitive, regulated, and personal data.

Our services include:

- Data protection and privacy framework design
- GDPR and Isle of Man data protection compliance
- Subject Access Request (SAR) and information rights handling
- Cybersecurity, IT governance, and risk assessments
- Secure system and process design aligned to regulatory expectations
- Backup, disaster recovery, and IT resilience planning

By integrating data security with compliance and governance, we help organisations avoid fragmented approaches — ensuring security controls support regulatory obligations rather than sit alongside them.

Freedom of Information (FOI) Support

Knight provides specialist FOI support to public bodies and organisations subject to the Isle of Man Freedom of Information Act 2015.

We assist with:

- FOI request handling and response drafting
- Internal reviews and Section 42 submissions
- Exemption analysis and statutory reasoning
- FOI process design, training, and governance

We help authorities respond lawfully, consistently, and confidently — even in complex or contentious cases.

IT & Technical Services

Technology and compliance go hand-in-hand. Knight provides full IT support to ensure your systems are secure, resilient, and aligned with regulatory expectations.

Our services include:

- IT infrastructure management
- Cybersecurity solutions
- Backup and disaster recovery
- Cloud and systems support
- Strategic IT planning

We keep your organisation secure, stable, and ready for the future.

Operating Under Regulatory Oversight

Many organisations struggle not with regulation itself, but with operating confidently under ongoing oversight.

We help clients:

- Prepare for regulatory scrutiny before it arises
- Engage clearly and proportionately with regulators
- Align internal practices with supervisory expectations
- Maintain resilience as regulatory and legal requirements evolve

This is particularly valuable where technology, data, and compliance intersect — areas where regulatory risk is often highest.

Who We Support

Knight Consultancy works with a wide range of organisations across the Isle of Man, including:

- **Local Authorities** — FOI handling, data protection, governance, and IT resilience
- **Regulated Businesses** — TCSPs, financial services firms, accountants, and other supervised entities
- **Local Law Firms** — Data protection, FOI advisory, IT support, and compliance frameworks
- **Small and Medium-Sized Enterprises** — Governance, data protection, and IT modernisation
- **Community and Voluntary Organisations** — Practical, affordable compliance and governance support
- **Businesses establishing or relocating to the Isle of Man** — Scoping, implementing, and operating within appropriate regulatory frameworks

Why Organisations Choose Knight

A Single Partner for Compliance, Governance & IT - We bridge the gap between regulation and technology — ensuring your systems, processes, and obligations work together seamlessly.

Practical, Straightforward Advice - We don't overcomplicate. We give clear, actionable guidance that fits the way your organisation works.

Local Expertise, Trusted Experience - Based in the Isle of Man, we understand local regulation, local expectations, and local challenges — while applying international best practice.

Flexible Support - Whether you need a one-off project, ongoing advisory, or full outsourced support, we tailor our services to your needs.

How We Help

- Reduce regulatory and operational risk
- Strengthen governance and accountability
- Improve data protection maturity
- Manage FOI requests confidently and lawfully
- Build resilient IT systems
- Support Boards, senior leaders, and operational teams
- Provide ongoing advisory and hands-on support

Knight gives you the clarity, structure, and resilience to move forward with confidence.
